LF58 is the formidable live electronic project founded by Giuseppe Tillieci AKA Neel, and multi-disciplinary artist Filippo Scorcucchi. Fascinated by the possibilities offered within the realm of experimental and ambient music, continuous research has led them to increasingly boundless and mystical sonic territories.

The like-minded duo began their collaboration in 2015, officially presenting the project two years later with their first release on ASC's Auxiliary imprint. The scope of the project seemed tacitly clear from the outset – far inter-planetary expedition and rigorous philosophical inquiry. Elegantly interwoven by one another, the modular systems they have built strike the balance between soul and machine, combining to create one body of intelligence.

With recent shows including Café OTO, Draaimolen and Freerotation festivals, LF58 are set to release their debut album on Astral Industries on 6th April 2020. Alterazione presents a critical statement – distinguished by its technical execution and breathtaking artistry. The album itself is a cathedral of sound, each cavernous chamber an exploration of space and consciousness. Presented in four movements (one track per side), altogether they extend as a transportive experience of evolution for the listener.
